Illegal Bus Traffic on West 44th Street in Manhattan

The residents of West 44th Street between 9th and 10th Avenues have complained that a large number of commuter and tour buses travel on this residential block, instead of using the proper truck routes to reach their destination. In an effort to quantify the problem they performed a survey of origin and destination on Wednesday March 13th, 2013 between 4:00 and 6:00 p.m.

W44th Street between 9th and 10th Avenues is a very residential street, lined with four story-brownstones and historical buildings. There are two lanes of parking and one moving lane.

FINDINGS:

90% of the buses use this street at a detour to reach the Port Authority Bus Terminal (PABT) located at W40th Street and 9th Avenue instead of approved truck routes like 42nd Street or even better, 40th Street that would deliver them directly to the terminal, avoiding three dangerous turns in conflict with high volumes of pedestrians.

- 59 buses traveled on the residential block in two hours. At 5:00 pm, 20 buses in 28 minutes traveled this block, all headed to the (PABT)
- 54 buses or 90% make a right turn south on 9th Avenue, all but few exceptions headed to the PABT on 40th Street and 9th Avenue.
 - o 35 of them came north on 10th Avenue and made a turn East on 44th Street.
 - o 19 buses came from further west
- 5 buses went east at 9th Avenue, all of them coming from further west at 10th Avenue
- Some of the buses double park on the street and idle.
- 7 companies account for 80% of the traffic (see attachment 1):
 - o Academy, with 14 buses or 24%, all turning south on 9th Avenue
 - Community Lines Jitney Gate 51, with 11 buses or 19%, all turning south on 9th Avenue
 - o NJ Transit, with 8 buses or 14%, all turning south on 9th Avenue
 - o Trans Bridge Lines with 4 buses, all turning south on 9th Avenue
 - o Martz, with 3 buses, all turning south on 9th Avenue,
 - Bieber and MTA (not in service), each with 2 buses, all turning south on 9th
 Avenue

RECOMMENDATIONS:

- Bus companies and the Port Authority Management should instruct drivers to respect truck routes and preferred routes to reach the PABT (see attachment 2).
- New signage should be installed at 44th street and 10th avenue (on the avenue and on the street) barring trucks and commercial traffic.
- New signage should be installed at the Lincoln Tunnel exit to direct buses to 40th
 Street terminal entrance.
- Speed Bumps should be installed on 44th Street between 11th and 9th Avenue in anticipation of the reopening of PS 51 and a second school on 44th Street.

Congestion and Double Parking on W44th Street

Bus Mayhem is a daily occurrence, blocking intersection and causing gridlock while the Traffic Signal is red at W44th Street and $9^{\rm th}$ Avenue

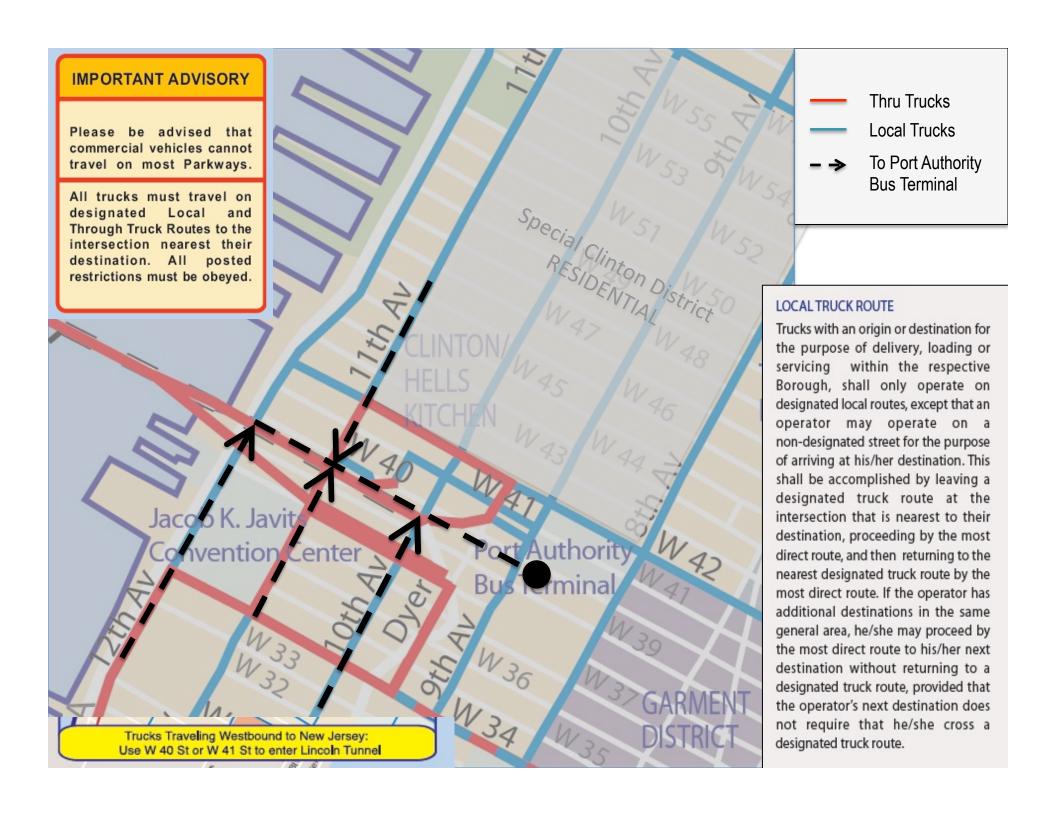

Pedestrians risk their lives to cross the street, walking around buses too large for the drivers to see them
